

HARTFORD UNION STATION UPDATE

Coronavirus (COVID-19)

Greater Hartford Transit District is trying to be as proactive as possible to maintain a ridged cleaning approach to Coronavirus concerns. Our janitorial contractor is following an enhanced cleaning regimen for Hartford Union Station which includes both high touch and common areas throughout the day and evening to include, but not be limited to; doors, door knobs, windows, benches, partitions, trash cans, elevators, handrails, ledges, restrooms and floor surfaces. Cleaning agents that are deemed effective for disinfecting purposes and contain anti-viral components such as bleach/water mixes and other disinfectant sprays and liquid which is approved by the CDC for Coronavirus and the flu are being used. We are closely engaged with state and federal resources to carefully monitor, and if need be, respond to emergent health concerns that have the ability to impact passengers, employees and tenants of Hartford Union Station.

The Centers for Disease and Control and Prevention (CDC) offer the following preventative steps for the coronavirus:

- **The CDC recommends that people wear masks in public settings and when around people who don't live in your household, especially when other social distancing measures are difficult to maintain.**
- **It is expected that all individuals entering Hartford Union Station will wear face masks until they depart the facility.**
- **Please keep your distance from others (at least 6' of separation is critical).**
- **Stay home if you are sick**
- **Wash your hands** often with soap and water for at least 20 seconds
- **Avoid** touching your eyes, nose and mouth with unwashed hands
- **Avoid** close contact with those who are sick
- **Cover your cough or sneeze** with a tissue, throw the tissue in the trash, then wash hands
